

Drive-thru and walk-in COVID-19 testing for pediatric patients

Dear Colleague:

Beginning Tuesday, April 21, UCSF Benioff Children's Hospitals are accepting referrals for drive-thru COVID-19 testing at our Teen Health and Primary Care Clinic at 5275 Claremont Ave., Oakland, CA 94607. Walk-in appointments for those without cars are also available.

By referral only, we are ready to accept your pediatric patients with symptoms suggestive of COVID-19 who have not been tested recently or who have high risks for complications and have been exposed to confirmed COVID-19 infected people. **You may fax your referral to (510) 450-7975.** One of our infectious disease physicians will contact you immediately regarding any positives and next steps. We will inform the patient's family directly about negative test results.

We are proud to serve your patients and support your practice in this challenging time.

Please note:

- We have appointments for about 25 tests per day.
- A parent or guardian of a higher risk or immunocompromised patient may be accommodated with a separate referral and appointment time.
- Weather permitting.

Hours: Monday through Friday | 8 a.m. to 12:30 p.m. and 1 p.m. to 4:30 p.m.
