10/3/17 “Say ‘No Mo’ to CRMO: Radiology of Chronic Recurrent Multifocal Osteomyelitis - A Primer for Clinicians”
Presented by: Mahesh M. Thapa, MD  
Associate Professor-Pediatric Radiology  
University of Washington

Objectives:
1. Describe common imaging findings of CRMO (Chronic Recurrent Multifocal Osteomyelitis)
2. List the differential diagnoses for CRMO.
3. Differentiate CRMO in children from other rheumatologic processes.

10/10/17 “Immune Mediated Encephalopathies in Children and Adolescents: Mechanisms, Treatment, and Outcomes”
Presented by: Wendy Mitchell, MD  
Attending Physician, Division of Neurology, Professor of Clinical Neurology, USC Keck School of Medicine

1. Be able to recognize opsoclonus-myoclonus syndrome (OMS) and differentiate it from other abnormal eye movements.
2. Distinguish OMS features from the more common acute cerebellar ataxia of childhood.
3. Identify certain immunological mechanisms common to OMS and other neuroinflammatory conditions.

10/17/17 “Normal and Pathologic Gait in Children”
Presentation from: UCSF Benioff Children’s Hospital Oakland  
Adam Bartlett, MD-Pediatric Rehabilitation and Jason Jagodzinski, MD-Pediatric Orthopaedic

Objectives:
1. Identify the basic phases of the normal gait cycle and describe the primary determinants of gait.
2. Recognize common deviations from normal gait and diagnose their underlying mechanisms.
3. Perform a basic gait exam and learn relevant physical exam maneuvers.
4. Examine the guidelines for subspecialty referral for gait deviations, including indications for formal, quantitative gait analysis.

10/24/17: “Updates in Pharmacologic Pain Management”
Presented by: Lawrence Long, MD  
Anesthesia  
UCSF Benioff Children’s Hospital Oakland

Objectives:
1. Describe the benefits and risks of opioids based on pain assessment.
2. Utilize best practices for identifying and treating the three main types of pain.
3. Describe multimodal analgesia and employ updated prescription strategies.

10/31/17: “So Near, and Yet So Far: The Late Preterm Infant”
Presented by: Sandra Wai, MD  
Neonatal-Perinatal Medicine  
UCSF Benioff Children’s Hospital Oakland

Objectives:
1. Define late preterm (LP) gestation and list factors that contribute to higher rates of preterm birth.
2. Identify the factors that contribute to late preterm infant (LPI) mortality, morbidity, and readmission.
3. Utilize evidence-based guidelines for late term infants (LPI) including criteria for discharge.

Grand Rounds takes place in the Outpatient Center Auditorium, 8:00-9:00 am (unless otherwise noted).  
UCSF Benioff Children’s Hospital Oakland is accredited by the Institute for Medical Quality/California Medical Association (IMQ/CMA) to provide continuing medical education for physicians.  
UCSF Benioff Children’s Hospital Oakland designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
